imou

IMOU Robotic Self-empty Vacuum Cleaner

Hands-free Cleaning with Auto Dirt Disposal Base

Self Emptying
3000ml dust disposal bag and auto dirt disposal base

Quick Mapping
Multi-channel sensor with LiDAR navigation

Never Miss A Spot
Path calculation powered by smart algorithms

Strong Suction
Efficiently clean with 2700pa suction

3in1 System
Includes sweeping, vacuuming and mopping

Smooth Moving
Avoids & crosses obstacles without getting stuck

App Control
Customize, schedule and supervise your cleaning

Auto-recharge
If the battery gets low, it will return to get charged then resume cleaning

Auto Dirt Disposal Master

30-days hands-free cleaning, with a self-empty station where it disposes dust automatically

Lightning-Fast Mapping with LIDAR

The mapping camera spins 6 times per second and measures the distance to 2,016 different points in the room to build a map

Measuring range	Sampling rate	Scanning frequency
26 feet	**2,016 samples per second**	**6 rotations per second**

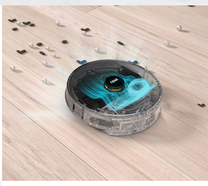
Accurately Build Cleaning Path

Automatically utilises smart algorithms to create the most efficient paths

Mop and Vacuum All in One

Powerful and Thorough

2700pa suction power to get dirt in seconds with the V-shape brushroll



Automatic Carpet Boost ensures every carpet gets max power

Single Pass, Two Cleans

With electronically controlled water tank, you can use the app to adjust water usage for each room's atmosphere

- Low water usage in the bedroom
- Medium water usage in the living room
- High water usage in the kitchen

No More Getting Stuck

With the multichannel sensor system, the robot can effectively avoid obstacles, and clean your house without getting stuck

Non-Stop Cleaning

Large wheels roll over 20-mm door ledges to get to the mess

Full-Automation with App Connectivity

Clean anytime, anywhere with scheduled cleaning plans tailored to each zone, or let it roam free

Continuous Cleaning with Smart Charging

Drives back to the charging station for recharge, and then picks back up right where it left off
